

CONTENTS

AMELIORATION, FARMING, CROP PRODUCTION	5
Alieksieiev O.O., Shuvar I.A., Bakhmat O.M., Vradii O.I. Intensity of calcium accumulation in the above-ground vegetative mass of energy crops when grown on different soils.....	5
Almashova V.S. The Impact of Modern Legume Cultivation Technology on the Post-War Restoration of Soils in Southern Ukraine.....	12
Andriienko A.L., Semeniaka I.M., Andriienko O.O., Tkalich Yu.I. Allelopathic effect of post-harvest residues of predecessors on the growth and development of late spring crops in the juvenile period.....	17
Butenko A.O., Drozdenko A. Yu. Regulation of potato biometric parameters through the application of different pre-sprouting periods.....	25
Butenko E.Yu., Tkachenko R.S., Medvid S.I. The influence of methods of basic soil cultivation on the indicators of the structure of sunflower yield.....	32
Vozhehova R.A., Lykhovyd P.V., Lavrenko S.O., Maksymov D.O. A computational framework for precision spray-tank acidification: An integration of chemical equilibrium modeling and information technologies to ensure chemical stability of pesticides.....	37
Zaika V.K., Simchuk A.P., Shelenko D.I., Dmitrik P.M., Kolyadzin I.F., Dushko P.M. The influence of sowing dates on the formation of crop structure and productivity of maize.....	43
Kryvenko A.I., Usov R.M. Assessment of varietal resistance of winter-sown peas to root rot pathogens in the forest-steppe conditions of Ukraine.....	50
Pankova S.O. Impact of Intensive Farming Technologies on the Ecological Condition of Shelterbelt Forest Strips in the Agro-Landscapes of the Forest-Steppe.....	58
Piliarska O.O., Zhrebchuk S.V., Shablia O.S., Polahenko O.S. Bibliographic Analysis of Risk Identification and Management in Treated Wastewater Reuse for Agricultural Irrigation as a Method for Implementing Best Practices in Ukraine.....	62
Senyk I.I., Zubov V.V. The effect of fertilizer on the yield of legume-cereal haymaking in the conditions of the Western Forest-Steppe.....	77
Serhieiev L.A., Kohut I.M., Marchenko T.Yu., Khomenko T.M., Marchenko V.D. The influence of complex microelements for foliar feeding of plants on the yield structure of lentil varieties and lines.....	82
Serdyuk P.V., Kovalenko V.M. Research on the treatment of potato tubers with nitrogen-fixing bacteria and biological preparations with mycorrhizal properties: experience and prospects.....	89
Tkachuk O.P., Vergelis V.I. Phytoamelioration of degraded soils by growing alfalfa (<i>Medicago sativa</i> L.).....	95
Trandafir I.V. Bruchophagus on grain crops in the conditions of the Odessa region.....	102
Tsytsyura Ya.H. The Potential of Regrowth Biomass of Oilseed Radish Use as Green Manure from the Perspective of Soil Weed Seed Bank Control.....	108
Chornomorets O.O. The influence of bioorganic elements of growing technologies on the duration of interphase periods and the vegetation cycle of winter wheat varieties in the conditions of the Forest-Steppe of Ukraine.....	117
BREEDING, SEED FARMING	125
Borovyk V.O., Maltseva O.P. The degree of phenotypic dominance and heterosis in plant height in first-generation F ₁ cotton hybrids.....	125
Pikich O.P., Vyshnevskya O.V., Levkivskiy I.V. Complex effect of plant growth regulator, foliar feeding, and irrigation on the formation of seed-size potato tubers under the conditions of the Southern Polissia.....	133
